# Experiment 7

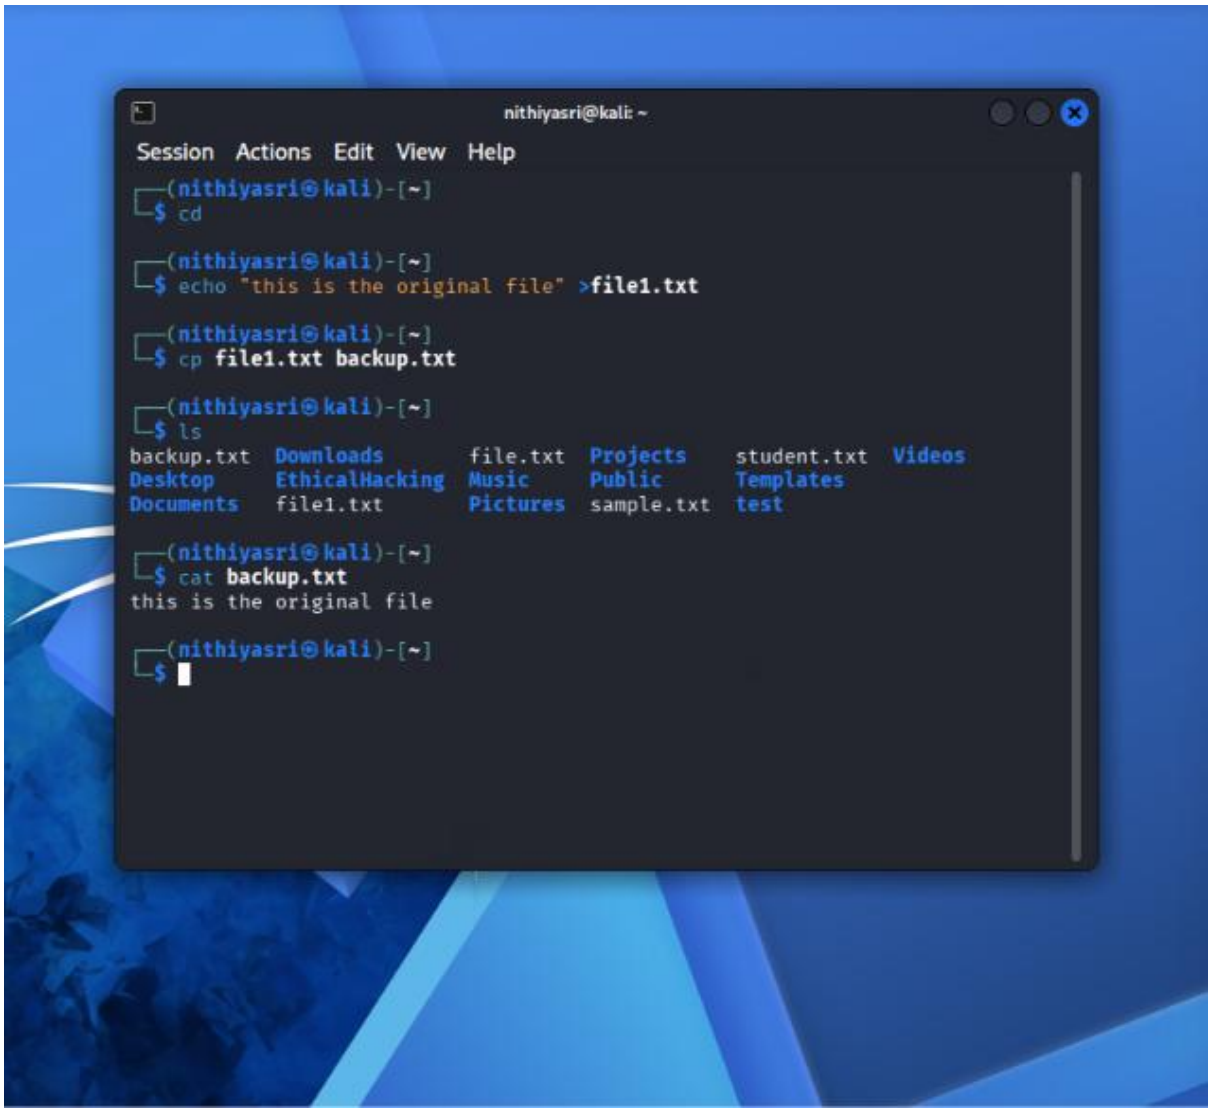

## Navigation and Copy Commands

**Aim**

**To execute and understand the usage of cd, cp, and ls commands in Kali Linux.**

**Procedure**

1. **Open the Kali Linux terminal.**
2. **Execute the ls command to list files and directories.**
3. **Use the cd command to navigate between directories.**
4. **Create a file using the touch command.**
5. **Use the cp command to copy the file to another file.**
6. **Execute the ls command to verify the copied file.**

**Result**

**Successfully executed and understood the usage of cd, cp, and ls commands in Kali Linux.**
